## Vehicle Registration Renewal: Pay in 6 Instalments

### Registration Renewal Using Pre-Authorized Debits

The Société de l'assurance automobile du Québec is offering a new<sup>1</sup> method of paying vehicle registration fees on renewal by pre-authorized debit instalments. This is available to:

- owners of vehicles that weigh 3,000 kg and over, or
- owners who paid \$15,000 or more in vehicle registration fees for the last year, or
- IRP<sup>2</sup> registrants.

### Pay in six instalments

With pre-authorized debit instalments, you can settle your fee payment notice or IRP fee invoice, taking care of vehicle registration for a year in **six instalments**, covering:

- Québec registration fees
- insurance premiums under the public plan and tax on insurance
- additional contributions and fees
- administration charges and instalment fees
- a service charge (\$4.75 per vehicle).

1. Pre-authorized debits replace the two-cheque instalments that some owners used.

2. International Registration Plan

## Signing Up<sup>3</sup>

It's simple. Mail to the SAAQ:

1. the detachable part of the PRE-AUTHORIZED DEBIT (PAD) AGREEMENT (after having signed it!)
2. a sample cheque marked "VOID" or "NUL"
3. fee payment notice or IRP fee invoice.

For IRP-registered vehicles only, you can make an appointment and hand the three documents in at an IRP counter.

### Remember:

**You must notify us of any change to your bank account.**

**You may put an end to pre-authorized debits in the course of a year, under certain conditions.**

## What happens in the course of a year ...

### ...if you register another vehicle?

Registration fees for that vehicle must be paid in full, since no vehicle can be added under the pre-authorized debit program.

### ...if you store or discard a vehicle or register it outside Québec?

Pre-authorized debits will be adjusted accordingly.
