ECE/TRANS/256

UNITED NATIONS ECONOMIC COMMISSION FOR EUROPE

The United Nations Economic Commission for Europe (UNECE) is one of the five United Nations regional commissions, administered by the Economic and Social Council (ECOSOC). It was established in 1947 with the mandate to help rebuild post-war Europe, develop economic activity and strengthen economic relations among European countries, and between Europe and the rest of the world. During the Cold War, UNECE served as a unique forum for economic dialogue and cooperation between East and West. Despite the complexity of this period, significant achievements were made, with consensus reached on numerous harmonization and standardization agreements.

In the post-Cold War era, UNECE acquired not only many new member States, but also new functions. Since the early 1990s the organization has focused on analyses of the transition process, using its harmonization experience to facilitate the integration of Central and Eastern European countries into the global markets.

UNECE is the forum where the countries of western, central and eastern Europe, central Asia and North America – 56 countries in all – come together to forge the tools of their economic cooperation. That cooperation concerns economics, statistics, environment, transport, trade, sustainable energy, timber and habitat. The Commission offers a regional framework for the elaboration and harmonization of conventions, norms and standards. The Commission's experts provide technical assistance to the countries of South-East Europe and the Commonwealth of Independent States. This assistance takes the form of advisory services, training seminars and workshops where countries can share their experiences and best practices.

TRANSPORT IN UNECE

The UNECE Sustainable Transport Division is the secretariat of the Inland Transport Committee (ITC) and the ECOSOC Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals. The ITC and its 17 working parties, as well as the ECOSOC Committee and its sub-committees are intergovernmental decision-making bodies that work to improve the daily lives of people and businesses around the world, in measurable ways and with concrete actions, to enhance traffic safety, environmental performance, energy efficiency and the competitiveness of the transport sector.

The *ECOSOC Committee* was set up in 1953 by the Secretary-General of the United Nations at the request of the Economic and Social Council to elaborate recommendations on the transport of dangerous goods. Its mandate was extended to the global (multi-sectoral) harmonization of systems of classification and labelling of chemicals in 1999. It is composed of experts from countries which possess the relevant expertise and experience in the international trade and transport of dangerous goods and chemicals. Its membership is restricted in order to reflect a proper geographical balance between all regions of the world and to ensure adequate participation of developing countries. Although the Committee is a subsidiary body of ECOSOC, the Secretary-General decided in 1963 that the secretariat services would be provided by the UNECE Transport Division.

ITC is a unique intergovernmental forum that was set up in 1947 to support the reconstruction of transport connections in post-war Europe. Over the years, it has specialized in facilitating the harmonized and sustainable development of inland modes of transport. The main results of this persevering and ongoing work are reflected, among other things, (i) in 58 United Nations conventions and many more technical regulations, which are updated on a regular basis and provide an international legal framework for the sustainable development of national and international road, rail, inland water and intermodal transport, including the transport of dangerous goods, as well as the construction and inspection of road motor vehicles; (ii) in the Trans-European North-south Motorway, Trans-European Railway and the Euro-Asia Transport Links projects, that facilitate multi-country coordination of transport infrastructure investment programmes; (iii) in the TIR system, which is a global customs transit facilitation solution; (iv) in the tool called **For Future Inland Transport Systems (ForFITS)**, which can assist national and local governments to monitor carbon dioxide (CO₂) emissions coming from inland transport modes and to select and design climate change mitigation policies, based on their impact and adapted to local conditions; (v) in transport statistics – methods and data – that are internationally agreed on; (vi) in studies and reports that help transport policy development by addressing timely issues, based on cutting-edge research and analysis. ITC also devotes special attention to Intelligent Transport Services (ITS), sustainable urban mobility and city logistics, as well as to increasing the resilience of transport networks and services in response to climate change adaptation and security challenges.

In addition, the UNECE Sustainable Transport and Environment Divisions, together with the World Health Organization (WHO) – Europe, co-service the Transport Health and Environment Pan-European Programme (THE PEP).

Finally, as of 2015, the UNECE Sustainable Transport Division is providing the secretariat services for the Secretary General's Special Envoy for Road Safety, Mr. Jean Todt.

THE 2015 BULLETIN ON STATISTICS OF ROAD TRAFFIC ACCIDENTS IN EUROPE AND NORTH AMERICA

The fifty-third edition of the Statistics of Road Traffic Accidents in Europe and North America contains the basic statistics on road traffic accidents provided by the Governments of member States of the United Nations Economic Commission for Europe (UNECE). The publication is purely statistical in character. **The statistics in this document are limited to road traffic accidents involving personal injury, and exclude accidents where only damage to vehicles is reported.**

Issued simultaneously in English, French and Russian, this publication is used by government services and officials for the analysis of accidents, patterns of accidents and for planning improvements in road traffic safety. This is of particular relevance for the ECE region as in the decade 2003–2013, there were, on average, approximately 133,000 persons killed and 4.9 million persons injured annually in almost 3.6 million road accidents.

Statistics for Road Traffic Accidents in Europe and North America is divided into three basic parts with an annex. The first part sets out charts and summary tables on the overall situation and developments in road traffic accidents and casualties in UNECE countries. The second part provides detailed statistics on road traffic accidents and includes the details of accidents such as location, time of occurrence, road condition, personal injuries and deaths. The third part shows background statistics on countries' vehicle fleets, estimates of vehicle-kilometres run and estimates of population by age group. The annex contains definitions.

Sources

The statistics appearing in this bulletin are compiled by the secretariat of the United Nations Economic Commission for Europe on the basis of replies to questionnaires submitted by member countries and from official national and international sources as of November 2015. For the primary indicators highlighted in the charts and summary tables, where data were missing, estimates were generated in order to provide a full view of the progression of road safety in the ECE region over the past decade. These estimated values are clearly noted in the relevant tables.

Comparability of data

Data are given according to the commonly agreed upon definitions approved by the Inland Transport Committee of the United Nations Economic Commission for Europe (see annex). Footnotes in tables indicate where countries have provided explanations for departures from these definitions.

The UNECE, in cooperation with Eurostat and the Organization for Economic Cooperation and Development's (OECD) International Transport Forum (ITF) has made efforts to minimize the differences in reporting between countries through a common glossary of terms. However, reporting in member States may remain unaligned in some cases and data should be analyzed carefully to avoid drawing misguided conclusions. In particular, studies have shown that non-fatal accidents and injuries resulting from such accidents may be underreported in some countries.¹

The data provided in this publication are also available on the UNECE Sustainable Transport Division website at w3.unece.org/PXWeb/en. Website data are updated on a regular basis and thus may be more current than data in this publication.

¹ Derriks and Mak, IRTAD Special Report: Underreporting of Road Traffic Casualties, 2007 (www.who.int/roadsafety/publications/irtad_underreporting.pdf).

Time period

Most of the statistics are presented in the form of time series. In general, the data for the latest year should be considered provisional while those of previous years are final.

Rounding

Where necessary, each figure has been rounded off to the nearest whole number. For this reason, there may occur in some series an apparent discrepancy between the sum of the constituent items and the totals shown.

UNECE member countries and nomenclature

As of December 2015, the Economic Commission for Europe is composed of the following 56 member countries (organized into three regions for graphical comparisons in this report):

European Union and European Free Trade Agreement (EU+EFTA) – Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, and United Kingdom of Great Britain and Northern Ireland.

North America – Canada and United States of America

Rest of UNECE – Albania, Andorra, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Georgia, Israel, Kazakhstan, Kyrgyzstan, Monaco, Montenegro, Republic of Moldova, Russian Federation, San Marino, Serbia, Tajikistan, the former Yugoslav Republic of Macedonia, Turkey, Turkmenistan, Ukraine and Uzbekistan.

Road Safety in the ECE Region

Following the adoption of resolution 64/255 by the General Assembly in 2010, the period 2011–2020 was declared as the Decade of Action for Road Safety, with a goal to stabilize and then reduce the forecast level of road traffic fatalities around the world by increasing activities conducted at the national, regional and global levels. The data provided for the most recent decade where road safety data are available (2003–2013) show that in the ECE region progress has already been made in terms of reducing the number of road accidents with injuries as well as the number of both fatalities and injuries in those accidents.

Between 2003 and 2013, the total number of fatalities in road traffic accidents decreased by more than 30 per cent in the ECE region (see Figure 1). The total number of fatalities was reported as 108,857 in 2013 (156,031 in 2003).² This trend was particularly pronounced between 2007 and 2010 where an average annual decrease of more than 8 per cent was reported.

Figure 1
Road traffic fatalities by region, 2003–2013
Thousands

Source: UNECE Transport Database

Note: Andorra, Monaco, San Marino and Turkmenistan are not included due to insufficient data availability.

Despite this positive trend, data on road traffic fatalities per inhabitant show large disparities between countries and regions (see Figure 2). In the ECE region, the per capita fatality rate is inversely correlated with gross domestic product (GDP) per capita and, accordingly, the wide variation in income level of member States is also evident in fatality rates. In 2013, Sweden, the United Kingdom and the Netherlands had the lowest number of fatalities per capita with Kyrgyzstan, the Russian Federation and Kazakhstan having the highest rates. Kyrgyzstan's rate of fatalities per capita was almost eight times that of Sweden. The ECE region as a whole reported approximately 87 fatalities per one million inhabitants in 2013, with the EU/EFTA region reporting a ratio more than 40 per cent lower than this average and the Rest of ECE region reporting a ratio of more than 40 per cent higher.

² Excluding Andorra, Monaco, San Marino and Turkmenistan where sufficient data were unavailable.

Figure 2

Road traffic fatalities per million inhabitants, by UNECE member State, 2013

The FYR of Macedonia = The former Yugoslav Republic of Macedonia

Source: UNECE Transport Database.

While data were more limited on road traffic fatalities per passenger car (due to a lack of data on total number of passenger cars in some member States), data provided highlight the large disparities between member States (see figure 3). In 2013, Sweden, Switzerland and Liechtenstein had the lowest number of fatalities per passenger car with Azerbaijan; the Republic of Moldova and Kazakhstan had the highest rates. Azerbaijan's rate of fatalities per passenger car was more than 20 times that of Sweden and several other member States reported incident rates more than 10 times higher than those with the lowest fatality rates. These wider differences (as compared to differences in fatality per capita rates) are related to a growing motorization rate in some member States with the most fatalities per capita relative to others in the ECE region. In many of these member States, road infrastructure and vehicle safety improvements are struggling to keep up with these high increases in the motorization rate.

Figure 3

Road traffic fatalities per million passenger cars by selected UNECE member States, 2013

The FYR of Macedonia = The former Yugoslav Republic of Macedonia

Source: UNECE Transport Database.

Figure 4 shows the number of road accidents with injuries. For the ECE region, a similar decrease was reported between 2003 and 2013 for this indicator with road accidents decreasing by more than 16 per cent.

Figure 4
Road traffic accidents by region, 2003–2013

Source: UNECE Sustainable Transport Database.

Note: Andorra, Monaco, San Marino and Turkmenistan are not included due to insufficient data availability.

Notably, the numbers of road accidents with injuries reported in both the EU+EFTA and the Rest of ECE regions are less than those figures reported in North America despite having more or equal numbers of fatalities. It is important to note here that the Rest of ECE region is the only region where road traffic accidents have actually increased during the period. This, coupled with an increase in the number of accidents after 2009 in North America, lead to a slight worsening of the figures for the ECE region as a whole after 2011.

The regions of the ECE have reported a wide range of numbers of persons killed per road traffic accident with injuries over the past decade (see Figure 5). The Rest of ECE region has experienced a decrease in severity of more than a third from 2003 to 2013. However, even considering this significant decrease, in 2013, the reported severity of accidents in the Rest of ECE region was almost five times higher than that of North America and about four times higher than that of the EU+EFTA region. This may reflect potential gains still to be made in improving emergency medical response as well as differing passive vehicle safety measures and differing road infrastructure safety parameters in some member States. However, potential differences in the reporting of accidents between member States should also be considered.

At the country level, disparities are more pronounced. In 2013, the severity of accidents in Azerbaijan (the member State with the highest number of fatalities per 100 accidents) was more than 35 times higher than in Germany (the member State with the lowest number of fatalities per 100 accidents). The 5 next worst performing member States all reported rates at least 10 times higher than Germany and the 5 next best performing countries.

Figure 5
**Number of road traffic fatalities per 100 traffic accidents (severity) by region,
 2003–2013**

Source: UNECE Transport Database.

The remainder of this document provides the detailed tables and data on road safety which form the basis for these figures. Specific information is provided on:

- Road traffic accidents data for the period 2003–2013;
- Number of persons killed in road traffic accidents for the period 2003–2013;
- Number of persons injured in road traffic accidents for the period 200–2013;
- Road Traffic Accident Profile for 2013: Area, population, and accidents;
- Road traffic accidents by location, time of occurrence and road condition;
- Road traffic accidents involving personal injury by nature of accident;
- Persons killed or injured in road traffic accidents by category of user and age group;
- General statistics including: Road vehicle fleet, estimated vehicle-kilometres and estimates of population and distribution by age group, 2013.

NOTES TO TABLE 1 - NOTES DU TABLEAU 1 - ПРИМЕЧАНИЯ К ТАБЛИЦЕ 1**Country notes - Notes relatives aux pays - Примечания к данным, представляемым странами**

1) From 9 am to 6 pm	1) De 9 heures à 18 heures	1) С 09:00 до 18:00.
2) From 9 pm to 9 am	2) De 21 heures à 9 heures	2) С 21:00 до 09:00.
3) From 6 pm to 9 pm	3) De 18 heures à 21 heures	3) С 18:00 до 21:00.
4) Data do not sum to total	4) Les données ne s'additionnent pas	4) Данные не включены в общее число
5) 2013 data are from the Malta National Statistics Office and may not be comparable with data in 2010 from CARE	5) Les données de 2013 proviennent de l'Office National des statistiques de Malte et ne peuvent pas être comparées avec les données de 2010 venant de CARE	5) Данные за 2013 год представлены Национальной службой статистики Мальты и могут быть несопоставимыми с данными за 2010 год, представленными CARE
6) Includes motorways	6) Inclut les autoroutes	6) Включает автомагистрали
7) Interstate highways only	7) Autoroutes nationales seulement	7) Только автомагистрали между штатами
8) Includes dawn	8) Inclut l'aube	8) Включает рассвет

2. Road traffic accidents involving personal injury by nature of accident**2. Accidents de la circulation routière ayant entraîné des lésions corporelles par type d'accident****2. Дорожно-транспортные происшествия, приведшие к ранениям людей, по типу происшествия**

Unit : number - Unité : nombre - Единица: Число

Item	Description
1	All accidents - Total (11+12+13)
11	Accidents between vehicle and pedestrian
12	Single vehicle accidents
13	Accidents between vehicles
	of which:
131	- Rear-end Collisions
132	- Collisions due to crossing or turning
133	- Head-on collisions
134	- Collision at level crossings
135	- Others (including collisions with parked vehicles)
2	Accidents in built-up areas - Total (21+22+23)
21	Accidents between vehicle and pedestrian
22	Single vehicle accidents
23	Accidents between vehicles
	of which:
231	- Rear-end Collisions
232	- Collisions due to crossing or turning
233	- Head-on collisions
234	- Collision at level crossings
235	- Others (including collisions with parked vehicles)

Rubrique	Description
1	Tous les accidents - Total (11+12+13)
11	Accidents entre un véhicule et un piéton
12	Accidents dans lesquels un seul véhicule était impliqué
13	Accidents entre véhicules
	dont:
131	- Collisions arrière
132	- Collisions dues à un croisement ou à un tournant
133	- Collisions frontales
134	- Collisions aux passages à niveau
135	- Autres, y compris Collisions avec des véhicules en stationnement
2	Accidents survenus dans des agglomérations - Total (21+22+23)
21	Accidents entre un véhicule et un piéton
22	Accidents dans lesquels un seul véhicule était impliqué
23	Accidents entre véhicules
	dont:
231	- Collisions arrière
232	- Collisions dues à un croisement ou à un tournant
233	- Collisions frontales
234	- Collisions aux passages à niveau
235	- Autres, y compris Collisions avec des véhicules en stationnement

Статья	Описание
1	Все дорожно-транспортные происшествия - Всего (11+12+13)
11	Дорожно-транспортные происшествия с участием транспортных средств и пешеходов
12	Дорожно-транспортные происшествия с участием одного транспортного средства
13	Дорожно-транспортные происшествия с участием транспортных средств,
	в том числе:

NOTES TO TABLE 3 - NOTES DU TABLEAU 3 - ПРИМЕЧАНИЯ К ТАБЛИЦЕ 3**General notes - Remarques générales - Общие примечания**

Areas are shaded where data do not apply	Zones grisées: les données ne s'appliquent pas	Заштрихованы области, к которым данные не применимы
The sum of subtotals may not be equal to the total where certain subtotals are missing	La somme des sous-totaux peut ne pas être égale au total, où certains sous-totaux sont manquants	Сумма промежуточных итогов может не совпадать с общим итогом при отсутствии некоторых промежуточных итогов

Country notes - Notes relatives aux pays - Примечания к данным, представляемым странами

1) 0-7 years old	1) De 0 à 7 ans	1) От 0 до 7 лет
2) 8-16 years old	2) De 8 à 16 ans	2) От 8 до 16 лет
3) 17-25 years old	3) De 17 à 25 ans	3) От 17 до 25 лет
4) 26-60 years old	4) De 26 à 60 ans	4) От 26 до 60 лет
5) More than 60 years old	5) De plus de 60 ans	5) Старше 60 лет
6) 0-17 years old	6) De 0 à 17 ans	6) От 0 до 17 лет
7) 2013 data are from the Malta National Statistics Office and may not be comparable with data in 2010 from CARE	7) Les données de 2013 proviennent de l'Office National des statistiques de Malte et peuvent ne pas être comparables avec les données de CARE de 2010	7) Данные за 2013 год представлены Национальной службой статистики Мальты и могут быть несопоставимыми с данными за 2010 год, представленными CARE
8) Includes occupants of large trucks over 10,000 pounds	8) Comprend les occupants des gros camions de plus de 10.000 livres	8) Включая людей на большегрузных автомобилях полной массой более 10 000 фунтов

The FYR of Macedonia = The former Yugoslav Republic of Macedonia

NOTES TO TABLE 4 - NOTES DU TABLEAU 4 - ПРИМЕЧАНИЯ К ТАБЛИЦЕ 4

Explanation of code - Explication du code - Объяснение шифра

A = Mopeds.	A = Cyclomoteurs.	A = Мопеды.
B = Motorcycles.	B = Motocycles.	B = Мотоциклы.
C = Passenger cars, including taxis.	C = Voitures particulières, y compris les taxis.	C = Легкие автомобили, включая такси.
D = Buses, coaches and trolleybuses.	D = Autocars, autobus et trolleybus.	D = Междугородные и городские автобусы и троллейбусы.
E = Lorries.	E = Camions.	E = Грузовые автомобили.
F = Road tractors.	F = Tracteurs routiers.	F = Дорожные тягачи.

Country notes - Notes relatives aux pays - Примечания к данным, представляемым странами

1) Lorries include road tractors	1) Les tracteurs routiers sont inclus dans la catégorie "camions"	1) Грузовые автомобили включают дорожные тягачи
2) All vehicles weighing less than 4,500 kilograms	2) Tout véhicule d'une masse inférieur à 4500 kg	2) Все транспортные средства массой до 4500 кг
3) Mopeds include mopeds and motorcycles with engines 50 cc or less for 2010-2011, mopeds and motorcycles with engines 125 cc or less for 2012	3) La catégorie "cyclomoteurs" inclus les cyclomoteurs et motocycles possédant un moteur de 50 cc ou moins en 2010-2011, et les cyclomoteurs et motocycles possédant un moteur de 125 cc ou moins en 2012	3) Мопеды включают мопеды и мотоциклы с двигателем объемом 50 см ³ и менее по состоянию на 2010-2011 гг., мопеды и мотоциклы с двигателем объемом 125 см ³ и менее по состоянию на 2012 г.
4) Motorcycles include mopeds and motorcycles with engines 50 cc or more for 2010-2011, mopeds and motorcycles with engines 125 cc or more for 2012	4) La catégorie "motocycles" inclus les cyclomoteurs et motocycles possédant un moteur de 50 cc ou plus en 2010-2011, et les cyclomoteurs et motocycles possédant un moteur de 125 cc ou plus en 2012	4) Мотоциклы включают мопеды и мотоциклы с двигателем объемом 50 см ³ и более по состоянию на 2010-2011 гг., мопеды и мотоциклы с двигателем объемом 125 см ³ и более по состоянию на 2012 г.
5) Motor coaches, buses, etc. exclude trolleybuses	5) Autocars, autobus, etc. excepté les trolleybus	5) Автобусы дальнего следования, городские автобусы и т.д. не включают троллейбусы
6) Lorries include special-purpose motor vehicles	6) La catégorie "camions" inclus les véhicules automobiles à usage spécifique	6) Грузовые автомобили включают автомобили специального назначения
7) Motor coaches, buses, etc. include trolleybuses only	7) Autocars, autobus, etc. trolleybus inclus	7) Автобусы дальнего следования, городские автобусы и т.д. включают только троллейбусы
8) Data from 2010 onward reflect changes in rules regarding the removal of vehicles from the register. As a result, data before this year are not comparable with more recent data	8) Les données à partir de 2010 reflètent les changements des règlements concernant le retrait des véhicules du registre. En conséquence, les données des années précédentes ne sont pas comparables avec les données plus récentes.	8) Данные, начиная с 2010 года, отражают изменения в правилах исключения транспортных средств из реестра. В результате этого данные, относящиеся к более раннему периоду, несопоставимы с более поздними данными
9) Data do not include Transnistria (the left side of the river Nistru and municipality Bender)	9) Les données n'incluent pas la Transnistrie (rive gauche du fleuve Dniestr et municipalité de Bender)	9) Не включены данные по Приднестровью (левый берег р. Днестр и муниципалитет Бендеры)
10) Motor coaches, buses, etc. include trolleybuses only in 2012	10) Autocars, autobus, etc. et trolleybus inclus seulement en 2012	10) Автобусы дальнего следования, городские автобусы и т.д. включают троллейбусы только по состоянию на 2012 г.
11) Great Britain only	11) Grande Bretagne seulement	11) Только Великобритания

12) Passenger vehicle data and lorry data from 2006 onward may not be comparable with earlier data due to changes in categorization of vehicles

12) Les données relatives aux passagers de véhicules et les données relatives aux camions à partir de 2006 peuvent ne pas être comparables avec les données plus anciennes étant donné les changements ayant affecté la catégorisation des véhicules

12) Данные по пассажирским и грузовым автомобилям, начиная с 2006 г., могут быть несопоставимы с более ранними данными по причине изменения категоризации транспортных средств

5. Estimated vehicle-kilometres run

5. Estimation des véhicules-kilomètres parcourus

5. Оценка пройденных транспортное средство-километров

См. Примечания и шифр в конце таблицы.

The FYR of Macedonia = The former Yugoslav Republic of Macedonia

ROAD TRANSPORT - TRANSPORT ROUTIER
АВТОМОБИЛЬНЫЕ ДОРОГИ
NOTES TO TABLE 5 - NOTES DU TABLEAU 5 - ПРИМЕЧАНИЯ К ТАБЛИЦЕ 5

Explanation of code - Explication du code - Объяснение шифра

A = Mopeds.	A = Cyclomoteurs.	A = Мопеды.
B = Motorcycles.	B = Motocycles.	B = Мотоциклы.
C = Passenger cars, including taxis.	C = Voitures particulières, y compris les taxis.	C = Легкие автомобили, включая такси.
D = Buses, coaches and trolleybuses.	D = Autocars, autobus et trolleybus.	D = Междугородные и городские автобусы, троллейбусы.
E = Lorries and road tractors.	E = Camions et tracteurs routiers.	E = Грузовые автомобили и дорожные тягачи

Country notes - Notes relatives aux pays - Примечания к данным, представляемым странами

1) 2013 Lorries and Road Tractor data may not be comparable with previous years.	1) Les données de 2013 concernant les camions et tracteurs routiers peuvent ne pas être comparables avec les années précédentes	1) Данные по грузовым автомобилям и дорожным тягачам могут быть несовместимыми с данными предыдущих лет
2) Includes only vehicle-movements of lorries and road tractors with total weight of 6.0 t and above	2) Comprend seulement les déplacements des camions et tracteurs routiers d'une masse totale de 6 tonnes et plus	2) Включая только передвижение грузовых автомобилей и дорожных тягачей с общей массой 0,6 т и более
3) Motorcycles includes mopeds	3) Les motocycles comprennent les cyclomoteurs	3) Мотоциклы включают мопеды
4) Vehicle-kilometers and passenger kilometers refers to transport on national and international territory	4) Les véhicules-kilomètres et les voyageurs-kilomètres se rapportent au transport national et international	4) Транспортное средство-км и пассажиро-км относятся к перевозкам по национальной и международной территории
5) Vehicle-kilometres includes only travel on roads outside built-up areas	5) Les véhicules-kilomètres comprennent seulement les voyages sur des routes situées hors agglomérations	5) Транспортное средство-км включают только перевозки по дорогам вне населенных пунктов
6) 2010 data may not be comparable with 2007 data	6) Les données de 2010 peuvent ne pas être comparables avec celles de 2007	6) Данные за 2010 год могут быть несовместимыми с данными за 2007 год
7) Includes only goods carried by Norwegian lorries with carrying capacity of 3.5 tons or over	7) Comprend seulement les marchandises transportées par les camions norvégiens d'une capacité de chargement de 3,5 tonnes et plus	7) Включая только груз, транспортируемый только норвежскими грузовыми автомобилями с грузоподъемностью 3,5 т и более
8) Data do not include Transnistria (the left side of the river Nistru and municipality Bender)	8) Les données ne comprennent pas la Transnistria (rive gauche du fleuve Dniestr et municipalité de Bender)	8) Не включены данные по Приднестровью (левый берег р. Днестр и муниципалитет Бендеры)
9) Passenger car vehicle kilometers refers to public transport only	9) Les kilomètres parcourus par des voitures particulières font référence au transport public seulement	9) Пассажиро-км относятся только к общественному транспорту
10) Motor coaches, Buses, etc. include intercity buses and trolleybuses	10) Les autocars, autobus, etc. comprennent les grandes lignes des autobus et les trolleybus	10) Автобусы дальнего следования, городские автобусы и т.д. включают междугородные автобусы и троллейбусы
11) Does not include urban passenger traffic	11) Ne comprend pas le trafic urbain de passagers	11) Не включая городские пассажирские перевозки
12) Motor coaches, Buses, etc. vehicle-kilometres include buses only	12) Les autocars, autobus, etc. et les véhicules-kilomètres comprennent seulement les autobus	12) Автобусы дальнего следования, городские автобусы и т.д. в транспортное средство-км включают только автобусы
13) Great Britain only	13) Grande-Bretagne seulement	13) Только Великобритания

14) Passenger vehicle data and lorry data in 2010 may not be comparable with 2007 due to changes in categorization of vehicles

14) Les données de 2010 concernant les camions et les voitures particulières peuvent ne pas être comparables avec les données de 2007 étant donné les changements ayant affecté la catégorisation des véhicules

14) Данные по пассажирским и грузовым автомобилям за 2010 год могут быть несопоставимы с данными за 2007 год по причине изменений в категоризации транспортных средств

DEFINITIONS¹ AND GENERAL NOTES

A. Definitions relevant to the tables of this Bulletin

Injury accident: Any accident involving at least one road vehicle in motion on a public road or private road to which the public has right of access, resulting in at least one injured or killed person.

Included are: collisions between road vehicles; between road vehicles and pedestrians; between road vehicles and animals or fixed obstacles and with one road vehicle alone. Included are collisions between road and rail vehicles. Multi-vehicle collisions are counted as only one accident provided that any successive collisions happen at very short intervals. Injury accident excludes accidents incurring only material damage.

Fatal accident: Any injury accident resulting in a person killed.

Non-fatal accident: Any injury accident other than a fatal accident.

Casualty: Any person killed or injured as a result of an injury accident.

Person killed: Any person killed immediately or dying within 30 days as a result of an injury accident.

Person injured: Any person not killed, but who sustained an injury as result of an injury accident, normally needing medical treatment.

Person seriously injured: Any person injured who was hospitalized for a period of more than 24 hours.

Person slightly injured: Any person injured excluding persons seriously injured.

Driver (involved in an injury accident): Any person involved in an injury accident who was driving a road vehicle at the time of the accident.

Passenger (involved in an injury accident): Any person involved in an injury accident, other than a driver, who was in or on a road vehicle, or in the process of getting in or out of a road vehicle.

Pedestrian (involved in an injury accident): Any person involved in an injury accident other than a passenger or driver as defined above.

Included are occupants or persons pushing or pulling a child's carriage, an invalid chair, or any other small vehicle without an engine. Also included are persons pushing a cycle, moped, roller-skating, skateboarding, skiing or using similar devices.

Accident between road vehicle and pedestrian: Any injury accident involving one or more road vehicle and one or more pedestrian.

Included are accidents irrespective of whether a pedestrian was involved in the first or a later phase of the accident and whether a pedestrian was injured or killed on or off the road.

Single road vehicle accident: Any injury accident in which only one road vehicle is involved. Included are accidents of vehicles trying to avoid collision and veering off the road, or accidents caused by collision with obstruction or animals on the road. Excluded are collisions with pedestrians and parked vehicles.

Multi-vehicle road accident: Any injury accident involving two or more road vehicles only. The following types of injury accidents involving two or more road vehicles are:

a) Rear-end collision: collision with another vehicle using the same lane of a carriageway and moving in the same direction, slowing or temporarily halted.

Included are collisions with moving vehicles; excluded are collisions with parked vehicles.

b) Head-on collision: collision with another vehicle using the same lane of a carriageway and moving in the opposite direction, slowing or temporarily halted.

Included are collisions with vehicles slowing or temporarily halted; excluded are collisions with parked vehicles.

¹ UNECE, Intersecretariat Working Group on Transport Statistics (IWG), *Glossary for Transport Statistics*, Third Edition (2003), (www.unece.org/trans/main/wp6/transstatglossmain.html).

c) Collision due to crossing or turning: collision with another vehicle moving in a lateral direction due to crossing, leaving or entering a road.

Excluded are collisions with vehicles halted and waiting to turn which should be classified under (a) or (b).

d) Other collisions, including collisions with parked vehicles: collision occurring when driving side by side, overtaking or when changing lanes; or collision with a vehicle which has parked or stopped at the edge of a carriageway, on shoulders, marked parking spaces, footpaths or parking sites, etc.

Included are all collisions not covered by (a), (b) and (c). The constituent element for classification of accidents between vehicles is the first collision on the carriageway, or the first mechanical impact on the vehicle.

B. Other definitions

Within built-up areas: Area with entries and exits designated by appropriate traffic signs.

Outside built-up areas: Any areas excluding areas with entries and exits designated by appropriate traffic signs. Includes motorways, unless elsewhere specified.

Daylight: As reported by the police or other authorities.

Darkness: As reported by the police or other authorities.

Twilight (or unknown): A residual category covering cases where daylight conditions were very poor or where no information on light conditions was available.

Dry road surface: A road surface not covered by water, snow, ice or other substances.

Other road surface: Any other road surface other than a dry road surface.

Motorway: Road, specially designed and built for motor traffic, which does not serve properties bordering on it, and which:

- (a) is provided, except at special points or temporarily, with separate carriageways for the two directions of traffic, separated from each other, either by a dividing strip not intended for traffic, or exceptionally by other means;
- (b) does not cross at level with any road, railway or tramway track, or footpath;
- (c) is specially sign-posted as a motorway and is reserved for specific categories of road motor vehicles.

Entry and exit lanes of motorways are included irrespectively of the location of the sign-posts. Urban motorways are also included.

Urban road: A road within the boundaries of a built-up area, which is an area with entries and exits specially sign-posted as such.

E road: The international "E" network consists of a system of reference roads as laid down in the European Agreement on Main International Arteries, Geneva, 15 November 1975 and its amendments.

Vehicles involved: Vehicles directly involved in accidents, and, so far as possible, those indirectly involved, should be recorded on the statistics report form.

- (a) Are regarded as being directly involved:
 - (i) Vehicles of which any occupants were killed or injured as a result of the accident;
 - (ii) Vehicles colliding with one or more vehicles (in motion, stationary, or parked), with pedestrians, with animals or other obstacles;
 - (iii) Vehicles whose driver or passengers were injured while alighting from or boarding the vehicle.
- (b) Are regarded as being directly involved:
 - (i) Vehicles whose movements were considered to have contributed to an accident, but which were not themselves involved;
 - (ii) Stationary or parked vehicles whose position was considered to have contributed to an accident, but which were not themselves directly involved.

Road vehicle: A vehicle running on wheels and intended for use on roads.

Road motor vehicle: A road vehicle fitted with an engine whence it derives its sole means of propulsion, which is normally used for carrying persons or goods or for drawing, on the road, vehicles used for the carriage of persons or goods. The statistics exclude motor vehicles running on rails.

Cycle: Any road vehicle which has at least two wheels and is propelled solely by the muscular energy of the person(s) on that vehicle, in particular by means of a pedal system, lever or handle (e.g. bicycles, tricycles, quadricycles and invalid carriages).

Moped: Any two-wheeled or three-wheeled road vehicle which is fitted with an internal combustion engine having a cylinder capacity not exceeding 50 cc. (3.05 cu. in.) and a maximum design speed not exceeding 50 km (30 miles) per hour.

Motor cycle: Two-wheeled road motor vehicle with or without side-car, including motor scooter, or three-wheeled road motor vehicle not exceeding 400 kg (900 lb.) unladen weight. This term does not include mopeds.

Passenger car: Road motor vehicle, other than a motor cycle, intended for the transport of passengers and seating not more than nine persons (including the driver). The term "passenger car" therefore covers taxis and hired vehicles, provided that they have fewer than ten seats. This category may also include pick-ups.

Motor coach or bus: Passenger road motor vehicle, seating more than nine persons (including the driver).

Trolleybus: A passenger road vehicle, seating more than nine persons (including the driver), which is connected to electric conductors and which is not rail-borne.

Tram (street-car): A passenger road vehicle, seating more than nine persons (including the driver), which is connected to electric conductors and which is rail-borne.

Goods road vehicle: Road vehicle designed, exclusively or primarily, to carry goods.

Tractor: Road vehicle designed, exclusively or primarily, to haul other road vehicles.

Combination of vehicles: Coupled vehicles which travel on the road as a unit.

Articulated vehicle: Combination of vehicles comprising a motor vehicle and semi-trailer coupled to the motor vehicle.

Permissible maximum weight: Total of the weight of the vehicle when stationary and ready for the road (including the weight of the driver and of all other persons carried at the same time) and of the weight of the load declared permissible by the competent authority of the country of registration of the vehicle.

Accident with drivers reported under the influence of alcohol, drugs or medication: Any injury accident where at least one driver is reported to be under the influence of alcohol, drugs or medication impairing driving ability, according to national regulations.

C. Departure from the definition of persons killed, and of serious and slight injuries

Significant departures from the commonly agreed definition are as follows:

Austria: As from 1966 till 1991, persons are recorded as killed who die within 3 days as a result of the accident; persons who die later are recorded as injured. Before 1966 and as from 1992, the standard definition was applied whenever possible.

Greece: Persons are recorded as killed who die within 3 days as a result of the accident; persons who die later are recorded as injured.

Latvia: Persons are recorded as killed who die at the scene of the accident or within 7 days; persons who die later are recorded as injured.

Portugal: Persons are recorded as killed who die at the scene of the accident or during or immediately after transport from the scene of the accident; persons who die later are recorded as injured.

Spain: Persons are recorded as killed who die within 24 hours as a result of the accident; persons who die later are recorded as injured.
